

Representations from “Ben Lee” in response to Consultation Paper on “Application for Prior Consent under Section 7P of the Telecommunications Ordinance in respect of the Proposed Acquisition of CSL New World Mobility Limited by HKT Limited”

香港電訊有限公司就建議收購 CSL New World Mobility Limited
按《電訊條例》第 7P 條申請事先同意諮詢文件
所提交的申述**

I object the deal from my personal view because after the deal, almost all of telecom services are under the control of Lee Ka Sing's family (Lee's family). It will absolutely reduce the competition of Telecom market and influence the service quality at the end of the day.

Telecom is one of critical personal belonging nowadays. If the transaction is completed and Lee can control the most of telecom market, the public people like me will become no choice in selecting such must service. Please consider. Thanks.

Ben Lee
